Subject: OU7 2005 B&C investigation report

Jack and John,

I am having trouble putting my hands on the 2005 Wabuska Drain investigation report by Brown & Caldwell. It would be the one where Ned Black conducted a field trip with B&C. I can't locate it on Sharepoint (and my Records Center isn't having any luck either). Could one of you guys point me to it (or have someone do so)? All I can find is the workplan (reference: Brown and Caldwell, 2003. Draft Final Wabuska Drain Work Plan. Yerington Mine Site, Lyon County, Nevada. Prepared for Atlantic Richfield Company. April 7.)

Thanks!

Dante Rodriguez
